

FLEXI-HEX[®]

→ **Flexi-Hex[®] Mini Sleeve**

Overview

A patented honeycomb sleeve made from recycled paper that helps protect products in transit. Renowned for its strength, the innovative hexagonal cell structure not only provides an incredible layer of protection around fragile products; it also creates a flexible sleeve that has many applications.

Details

- Designed for the safe shipping of fragile products
- Made from over 100% FSC recycled paper pulp
- Plastic-free, kerbside recyclable, home compostable and biodegradable
- Quick and easy to assemble
- Lightweight and compact for cost-effective shipping and storage
- Strong, flexible and adaptable; expands up to 250mm wide
- Sleeves can easily be cut down to size
- Can be customised with company branding
- Boxes sold separately
- An aesthetic e-commerce solution which adds brand value and improves the customer unboxing experience

Our sustainability credentials

We are proud to be part of a global community of businesses who meet the highest verified standards of social and environmental performance, transparency and accountability.

The Planet Mark certificate recognises the commitment to continuous improvement; measuring and reducing our carbon emissions, energy, water consumption, travel and waste by 5% or more each year.

Though it isn't a license to pollute, we offset our Scope 1 and 2 carbon emissions with Mossy Earth.

Flexi-Hex is proud to offer a range of FSC™ certified products with a chain of custody certificate. The FSC recycled label means these products are made from 100% recycled materials. Speak to our team for more information on our FSC™ products and availability.
